In an effort to create teams as fair and equitable as possible, based on ratings the team selection procedure will be as follows:

1. Gather all captains and whomever is attached to them. Each captain draws blind, a sponsor and anyone possibly attached to the sponsor.
2. Next draw: a primary pitcher if they don't already have one. Playing partner goes to the team, as applicable.

3. Each captain then draws blind, 2 infield females, one at a time and whomever is attached to them goes to each team, if they don't already have 2.
4. Each captain then draws blind a short stop. Playing partner goes to the team, as applicable.
5. At this time all remaining players go into hats based on ratings. Multiple hats as needed with ratings for groups / couples / singles etc.
6. Ratings are tracked through the draft and used in all picks if needed and at this point the team with the least number of players blind picks from the biggest group first then so on thru the smaller groups as needed by ratings and overall team ratings at that point.
7. No team can have more than 2 pitchers, any third pitchers picked get put back and coaches draw again.
8. If necessary, after looking at total points for all teams, you will move/trade players from weaker teams and stronger teams for overall equality.
